Events and Publications

The reconfigurable computing community maintains its activity through a number of established conferences and journals including:

- **FPGA**: ACM/SIGDA International Symposium on Field-Programmable Gate Arrays
- **FCCM**: IEEE Symposium on Field-Programmable Custom Computing Machines
- **FPL**: International Conference on Field-Programmable Logic and Applications
- **FPT**: International Conference on Field-Programmable Technology

TCFPGA is also involved in managing the dedicated journal:

- ACM Transactions on Reconfigurable Technology and Systems (TRETS)
